Description

The self-adhesive film strips provide more safety in road traffic. The warning labels are highly reflective and thereby make your vehicle more visible for others.

The retro-reflective warning label is approved in accordance with DIN30710 for labelling of vehicle with special rights. The label has arrow symbols pointing right, i.e. the diagonal lines run from the lower right outer part of the vehicle to the upper left of the vehicle interior.

The label is easy to apply and distinguishes itself by good adhesion and durability. It can even withstand high pressure cleaning equipment and a car wash.

We reserve the right to make changes in the interest of technical progress, as well as correcting printing errors and mistakes. Pictures are similar, decorative material not included. With the publication of this data sheet, previous editions lose their validity. Version: 21.12.2023
