Structure & Function

Divider set for small components case WM 340

Material no.: 5267856 | Matchcode: TBS WM 341 | EAN code: 4014599267856

Description

The divider set for the small components case WM 340 enables you to retrospectively equip your empty small components case and sub-divide it into four segments. The slotted dividers divide the width of the case into three compartments. The additional divider also enables you to sub-divide the depth of one of these compartments. To this end you simply insert the supplied plastic adapter in the desired position in the recesses of the slot divider and subsequently insert the divider. The compartments provide for order and overview in the small components case WM 340. The divider set consists of: 2 x slot divider 309x127 for small components case WM 340/341 (Art. No.: 5267849) 1 x divider 145x127 for small components case WM 340/341 (Art. No.: 5267801) 2 x slotted divider adapters for small components case WM 340/341 (Art. No.: KU100049) 5 x divider adapters for small components case WM 340/341 (Art. No.: KU100002) Tip: Should you purchase a new small components case, this equipment is already included with the small components case WM 341 (Art. No. 5228598).
