### Description

The divider set for the metal case KM 330 lets you fit out your empty metal case and sub-divide it into four segments at a later date.

The slotted dividers divide the width of the case into three compartments. The additional divider also lets you sub-divide the depth of one of these compartments. To do so, simply insert the hard plastic adapters supplied into any position in the recesses of the slotted divider and then insert the divider.

The compartments thus created provide for order and clear organisation within the metal case KM 330.

The divider set consists of:

2 x slotted dividers 309x93 mm for the metal case WM 330/331 (Ref. no. 5267740)

1 x divider 145x93 mm for the metal case WM 330/331 (Ref. no. 5267702)

2 x slotted divider adapters for the metal case WM 330/331 (Ref. no. KU100049)

5 x divider adapters for the metal case WM 330/331 (Ref. no. KU100002)

Note: The use of the dividers in the metal case KM 330 requires the divider insert 330 (Ref. no.: 49232977), if not already fitted.
