slot divider 262x93 for metal case WM 330/331

Material no.: 5267719 | Matchcode: TB WM 330/262 | EAN code: 4014599267719

Description

The slot divider 262x93 mm serves to sub-divide the metal case WM 330 and 331 in the depth.

With this divider you can sub-divide your metal case 330 in the depth in combination with a slot divider 309x93 mm (Ref. No. 5267740) - the slot divider in this case also sub-divides across the width. To this end you simply insert the supplied plastic adapter in the desired position in the recesses of the slot divider and subsequently insert the divider.

The metal case 331 comes equipped with two slot dividers meaning the divider 262x93 mm only needs to be positioned in the required spot via the supplied plastic adaptors in order to create further subdivisions in the depth.

The compartments provide for order and overview ability within the metal cases WM 330 and 331.
