Worktop for L-BOXX G, one-piece

Material no.: 121017995 | Matchcode: LB APD 1TEIL | EAN code: 4045294188535

Description

The worktop for the L-BOXX G and the LS-BOXX G is made of high-quality beech Multiplex with a thickness of 18 mm. It is simply placed on top of the BOXX and is used for carrying out spontaneous smaller jobs at your place of work. The handle of the L-BOXX fits perfectly into the recess in the centre of the panel, which enables the trouble-free transport of the worktop together with the L-BOXX G. It is possible to even open the BOXX with the worktop attached.

Screw clamps (Ref. No. 121018025) can additionally be inserted into the recess, allowing workpieces to be fixed. You therefore have the use of an entire mobile workplace, where you can undertake smaller jobs and adjustment work conveniently and safely.
