Worktop for L-BOXX G, two pieces

Material no.: 121017994 | Matchcode: LB APD 2TEILE | EAN code: 4045294188528

Description

The worktop made of solid 14 mm thick beech Multiplex was designed to fit the lids of all L-BOXXes G and LS-BOXXes G precisely. The worktop consists of two parts, requiring very little space, which can be transported and stowed away for example in the L-BOXX G. Both worktop parts can be simply connected to the L-BOXX G and/or the LS-BOXX G by means of a click mechanism and subsequently guided into each other, just like jigsaw pieces. This system means you therefore have the use of an entire mobile workplace, where you can undertake smaller jobs and adjustment work conveniently and safely. As a result, you will not only make a professional impression on your customers and colleagues, but also save yourself time. Depicted BOXXes and accessories are only for demonstration purposes and are not included in the scope of delivery.

We reserve the right to make changes in the interest of technical progress, as well as correcting printing errors and mistakes. Pictures are similar, decorative material not included. With the publication of this data sheet, previous editions lose their validity. Version: 29.02.2024
