### Description

The compact ProClick tool bag M 14 offers stowage space and orderly storage for hand tools. The open compartment provides organised stowage for pliers, tape measures and cutters, for example. 13 elastic loops - six on the outside and seven inside - provide orderly storage for additional tools, such as screwdrivers and spanners. The tool bag teams up perfectly with the ProClick Holder on your tool belt. This means that you always have the right tool and consumable to hand, and this saves lots of time when you are working up a ladder. The tool bag can also be used as a flexible and intelligent storage system on the SR5 van racking, in the C-BOXX, the tool carriage or on the AutoAssistant.
