Description

The car fire extinguisher 6 kg including holder is a Vole X-P stored pressure fire extinguisher for fire classification A, B and C also suitable for use on electronic devices up to 1,000 Volts.

The permanently pressurised container is constructed from special steel and therefore guarantees the highest level of safety. It is specially designed for carrying in cars, mobile homes and motor boats. The car fire extinguisher 6 kg is easy to operate and quickly ready to deploy. The fire extinguisher is operational between -30° to +60° Celsius and has a diameter of 155 mm. The car fire extinguisher is the quickest first responder when fire breaks out in your vehicle.
