SR5 – for your Mercedes-Benz

Sortimo Xpress

The Sortimo Xpress configurations are a selection of basic equipment at the best price-to-performance ratio, suitable for the respective vehicle model. For each vehicle type, you can choose between Basic or Pro shelves for the right and left-hand sides of the cargo space. You can combine these in any way you wish according to your needs.

The Xpress shelves have been developed from best-practice examples from our customers and as such are already tried and tested. Due to their popularity, we keep these shelves in stock and can deliver them within the shortest possible time and at a special price.

Upgrades to make your workflow much easier are available in the form of BOXXes, cases and accessories.

If you are missing a crucial element for your shelving needs, please contact your Sortimo contact person or the Sortimo Customer Service Center. We can adapt the Xpress shelves to your needs or work with you to fully customise them.

SoboPro installation floor

All SR5 shelves from the Xpress range can be bolted directly to the SoboPro installation floor. Clear benefit: saves time during installation.

The floor also includes the ProSafe lashing points, which provide you with a professional load securing package: The SoboPro floor is compatible with all ProSafe products, such as lashing straps, CargoStopp and load securing nets. The protection floor is resistant to dirt and water, easy to clean and extremely scratch- and impact-resistant.
